Experience

Frontend Developer
Hur Tech
6/2025 - 12/2025

- Developed responsive, scalable web applications at Hur Tech using React, focusing on modern UI design and clean, efficient code.
- Built and optimized front-end features for Hur Tech's web platforms, ensuring responsiveness, scalability, and a high-quality user experience.
- Delivered modern, maintainable React components and interfaces at Hur Tech, improving performance and usability across projects.

Frontend Developer Intern
Hur Tech
1/2025 - 6/2025

- Frontend Intern at Hurtech – built responsive UIs using React, TypeScript, and Tailwind, improving usability and performance.
- Developed clean, reusable components that enhanced UI consistency and reduced development time.
- Collaborated with senior developers to refine user flows and optimize front-end performance.

Game Developer
Self
2/2024 - 7/2024

- Created 3–4 small Unity games as a casual gamer exploring game development.
- Gained basic experience in C# scripting, simple mechanics, and beginner-level game design.
- Self-taught hobbyist developer experimenting with game ideas and prototypes.

Skills

Frontend & Technologies

HTML5 • CSS3 • JavaScript • React.js • Next.js • TypeScript • Tailwind CSS • Git/GitHub • Api integration • Redux • npm • Context Api • Responsive WebDesign • Unity • C/C#

Projects

ChatApp
10/2025 - 12/2025

- Developed a real-time **chat application** using **React.js**, **Tailwind CSS**, and **Firebase**
- Enabled sending of **messages, images, videos, voice notes, and documents**
- Implemented **user interactions** such as blocking/unblocking other users
- Integrated **Firebase Realtime Database / Firestore** for live messaging
- Designed a **clean and intuitive UI** for seamless communication
- Focused on **real-time updates** and performance

GrowHire
8/2025 - 10/2025

- Developed a responsive job-seeking platform using **React.js** and **Tailwind CSS**
- Implemented a **resume builder** with an interactive and user-friendly interface
- Integrated an **AI-powered chatbot** to assist users with job-related queries
- Built **job search, job tracking, and job details** features to enhance user experience
- Designed and implemented **subscription plans** and **user settings** modules
- Focused on delivering a **clean UI**, smooth interactions, and optimized performance

MovieVerse
6/2025 - 7/2025

- Built a movie search web application using **React.js** and **Tailwind CSS**
- Integrated external **APIs** to fetch and display movie details dynamically
- Implemented **cast details** with clickable links to navigate to related movies
- Designed a **responsive and modern UI** using Tailwind CSS
- Ensured **smooth navigation** and optimized user experience across devices

Education

Bachelor of Computer Science
Virtual University of Pakistan
10/2025 - Present

Intermediate Of Computer Science
National College of E-Commerce
5/2023 - 4/2025
