Professional Summary

MERN Stack Developer with hands-on experience building modern, scalable, and user-focused web applications using MongoDB, Express.js, React.js, Next.js, Node.js, and TypeScript. Experienced in developing responsive user interfaces, integrating REST APIs, implementing state management, and optimizing application performance. Passionate about writing clean, maintainable code and delivering high-quality digital experiences across frontend and backend environments.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React.js, Next.js, TypeScript

Backend: Node.js, Express.js

Database: MongoDB, Firebase, Supabase

Styling & UI: Tailwind CSS, Bootstrap, Responsive Web Design

State Management: Redux, Context API

APIs: REST APIs, GraphQL APIs

Tools: Git, GitHub, npm, Postman

Other: Unity, C#, C

PROFESSIONAL EXPERIENCE

Next.js Developer — PuroCoach | Mar 2026 – Present

- Developing and maintaining modern frontend applications using Next.js, React.js, TypeScript, and Tailwind CSS
- Translating designs into responsive and reusable user interfaces following modern development practices.
- Collaborating with designers and backend developers to implement features and improve user experience.
- Managing application state, optimizing performance, and maintaining clean and scalable code.

React.js Developer — Hur Tech | May 2025 – March 2026

- Developed responsive and scalable web applications using React.js and modern frontend practices.
- Built reusable and maintainable components, improving development efficiency and code quality.
- Collaborated with designers and backend developers to implement modern UI features and improve user experience.
- Optimized frontend performance and ensured cross-browser compatibility.

Frontend Developer Intern — Hur Tech | Nov 2024 – May 2025

- Built responsive user interfaces using React.js, TypeScript, and Tailwind CSS.
- Created reusable UI components to improve design consistency across applications.
- Assisted in optimizing application performance and refining user flows.

PROJECTS

MediQueue | React.js, Node.js, Express.js, MongoDB

- Developed a full-stack medical queue and appointment management system with role-based dashboards for patients, doctors, receptionists, and administrators
- Built frontend interfaces and backend APIs for appointment scheduling and real-time queue management.
- Designed and implemented authentication, authorization, and database workflows for secure system access.
- Developed responsive and scalable features while optimizing application performance and user experience.

GrowHire | React.js, Tailwind CSS

- Developed a responsive job-seeking platform with a clean and modern user interface.
- Built an interactive resume builder to enhance user engagement.
- Integrated an AI-powered chatbot to assist users with job-related queries.
- Implemented job search, job tracking, subscriptions, and user settings features.

PuroCoach | Next.js, Tailwind CSS, Redux

- Developed responsive multi-role dashboards for coaches and clients and other roles.
- Built scheduling and booking features to improve user workflows
- Developed reusable UI components and managed complex application state.
- Optimized application performance and user experience

EDUCATION

Bachelor of Computer Science — Virtual University of Pakistan (2025 - Expected 2029)
Intermediate of Computer Science — National College of E-Commerce (2023 – 2025)
